Bleeding from the Kidneys, Bladder, and Gravel "It was early in the spring of 1855 that this Compound was originated. A member of my family was afflicted with an irritation of the throat, attended with a disagreeable cough. I had for some months previous thought that a preparation, baving for ts basis the inside bark of white pine, might be so compounded as to be very useful in the case of the throat and lungs. To test the value of it in the case alluded to, I compounded a small quantity of the medicine that I had been planning, and gave t in teaspoonful doses. The result was exceedingly gratifying. Within two days the irritation of the throat was removed, the cough subsided, and a speedy cure was effected. Soon after this i sent some to a lady in Londonderry, N. H., who had been suffering for some weeks from a bad cough, occasioned by a sudden cold, and had raised mucus streaked with blood. She soop found relief, and sent for more. She took about ten ounces of it, and got well. J. B. Clack, Esq., editor of the Mauchoster Dady Mirror, made a trial of the same preparation in the case of a severe cold, and was enred immediately.
